The Complete JavaScript Course 2024: From Zero to Expert!

(June 2024)

Projects

Country Guesser Game

- Developed an interactive game using JavaScript where users guess country names based on hints.
- Implemented features such as user input validation, randomized hints, and a scoring system.

Fast Food Template Website

- Designed and built a template for a fast-food restaurant website using HTML, CSS, and JavaScript.
- Included sections for menu, testimonials, and contact information with a responsive layout.
- Focused on modern, appealing design and user-friendly navigation.

Weather App

- Created a weather application that fetches real-time data using an API, featuring current weather display, 4-day forecast, and search history.
- Implemented a responsive design to ensure usability across various devices.
